Re: *Notice of Ex Parte Presentation* – WT Docket No. 10-112

Dear Ms. Dortch:

On March 16, 2011, Fred Campbell, President of the Wireless Communications Association International, Inc., met with Kathy Harris, Richard Arsenault, John Schauble, and Michael Connelly, all of whom are in the Wireless Telecommunications Bureau at the Federal Communications Commission.

The parties discussed safe harbors to demonstrate the provision of substantial service in license renewal applications. The issues discussed included population or geographic safe harbors, fixed links, different safe harbors for rural areas, and different safe harbors for different spectrum bands.

Copies of this letter are being sent to the participants via email.

Sincerely,

Fred B. Campbell, Jr.
President and CEO
WCAI
